COLONY 7™

"EXTENDED WEAPONRY" INCREASES SCORES ...AND PROFITS!

NEW! "Extended Weaponry"

For an additional coin, a player can increase his score by increasing his power of destruction! "Extended Weaponry" is a built-in incentive for the novice and pro alike that makes it easier to play the game by giving deadly explosions a larger radius of force. With "Extended Weaponry", bigger scores mean bigger profits!

The Mission

The mission of the player is to defend Colony 7 from the evil Javvians! The enemy's fighter ships make intelligent strafing runs over the Colony to penetrate the protective shields. The Colony's cannons send converging pulse rays to explode the enemy's fighters before either the cannons or the entire Colony is destroyed.

The Colony flashes a "Caution" on the screen to warn of impending danger when the enemy's "Advisor" or "Scout" appears. The player will earn a high point value if he destroys the "Advisor" and the less time the "Scout" has to fly, the fewer replacement fighter ships will be called up to attack the Colony.

If a player does not destroy the "Bomber" or its bombs, its sure-fire aim will wipe out his cannons.

At the end of the first squadron, the player receives points for each structure left standing on the Colony... points that increase in value at the end of the next squadron!

When the situation seems desperate, the player can hit his "Mega-Blast" button which destroys everything in the range of its radiating explosion or can activate the "Eradicator" which wipes out everything on the entire screen. The "Mega-Blast" is powered by the fuel cells on the Colony... 3 cells for 3 "Mega-Blasts" hits per Colony... while the "Eradicator" can be activated only once per Colony.

Play becomes progressively more challenging and difficult as the enemy becomes smarter and moves faster in the life and death battle of strategy and skill!
